Engineering  
Education  
Excellence  
Award

## Preamble

The Institution of Engineers (India) [IEI] over the past 100 years has established its rich legacy towards the cause of promotion and advancement of the science, practice and business of Engineering through a multitude of activities. The number of academic institutions offering a degree or equivalent program in engineering/ technology has grown up significantly over the last few years. There is a need to identify the leading Engineering Educational Institutions for others to provide better and effective engineering education to the seekers. In view of the above, it has been directed to institute '**Engineering Education Excellence Award**' with the prime objective of recognizing the best Educational Institutions in the field of engineering & technology across the country. The award will be given away during Indian Engineering Congress.

## Role of The Institution of Engineers (India)

IEI has been playing a critical role in defining excellence and setting up benchmarks for upliftment of engineering education. The Department of Scientific & Industrial Research, Ministry of Science & Technology, Govt. of India has recognized it as a Scientific & Industrial Research Organization (SIRO) by virtue of its contribution in the area of scientific and industrial research. IEI was the only Accreditation Body in the country before the formation of AICTE in 1987 and NBA in 1994 and hence it is strategically positioned in developing and establishing the standards which would serve as a sieve for filtering out the best educational Institutions in engineering & technology.

## Nomenclature of the Awards
